For Indoor Residential Use Only

**Meteor®**

**Insect Growth Regulator with S-Methoprene**

- Effective, long-lasting indoor control of pre-adult fleas - up to seven full months]
- Contains the Insect Growth Regulator, (S)-Methoprene to stop pre-adult flea development - and future infestations
- Targets the hard-to-reach areas where pre-adult fleas live
- Breaks the flea life cycle
- Prevents the Emergence of Adult Fleas Indoors
- Will not stain carpet or upholstery
- For treatment of all areas harboring fleas

**ACTIVE INGREDIENT:**

(S)-Methoprene (CAS #65733-16-6)..... 1.2%

**OTHER INGREDIENTS\*:** ..... 98.8%

**TOTAL:** ..... 100.0%

\*Contains petroleum distillates

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

<b>FIRST AID</b>	
<b>If in eyes:</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>If on skin or clothing:</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>HOT LINE NUMBER</b>	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. <b>You may also contact SafetyCall® International (24 hrs/ day) at (866) 897-8050 for emergency medical treatment information</b>

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
CAUTION**

Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**User Safety Recommendations**

Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. User should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**GENERAL PRODUCT AND FLEA CONTROL INFORMATION**

S-METH 1.2 EC contains the insect growth regulator, S-methoprene, which acts by preventing the adult flea from developing at the immature life stage. S-METH 1.2 EC will not affect existing adult fleas and flea pupae. It only prevents treated Flea eggs and larvae onto treated areas to develop into adult fleas.

Use S-METH 1.2 EC as a preventative treatment before the flea season to prevent infestations before they start.

When applied to surfaces where flea eggs or larvae are located, S-METH 1.2 EC will prevent *[stop]* the eggs or larvae from developing to the next instar stage which prevents the development or emergence of adult fleas for up to 7 months [210 days]. S-METH 1.2 EC can be used to treat upholstered furniture, carpets, rugs, and pet rest areas (such as sleeping quarters).

DO NOT TREAT PETS DIRECTLY with this product. Only treat pets directly with an effective EPA registered flea control product designed for each particular pet species.

**MIXING DIRECTIONS**

Prepare product as a diluted spray solution by adding 1 ounce of this product to 1/2 gallon of water in a mixing container and agitate thoroughly. Then add an additional 1/2 gallon of water and agitate again, resulting in one gallon of spray solution.

**TANK MIXES**

If there is already a high population of fleas at the biting (adult) stage, tank-mix this product with an EPA registered product that is labeled for use to control fully developed/adult fleas. Add S-METH 1.2 you are tank mixing with this product to 1/2 gallon of water in the mixing container and agitate thoroughly. Then add this product to the mixing container and agitate further. Finally, add an additional 1/2 gallon of water to the mixing container to create one gallon of spray solution and agitate the mixture thoroughly. Applying this product immediately after preparation ensures that it is in suspension. If application is delayed, agitation to re-mix the products and checking for resuspension ensures proper blending.

**APPLICATION RATE**

Apply S-METH 1.2 EC at the rate of 1 gallon diluted spray solution (see "MIXING DIRECTIONS" above) per 1500 square feet of surface area.

**METHOD OF APPLICATION**

In order to prevent fleas and flea infestation, apply this product before the flea season. Users/applicators must ensure that they shake the solution well prior to each use.

Apply to areas where fleas, flea eggs and flea larvae are or are likely to be located including surfaces where pets sleep, carpets, rugs and upholstered furniture (including on and under cushions and throw rugs) using a low pressure sprayer with a fan tip typically used for indoor applications.

NOTE: S-METH 1.2 EC typically will not stain materials that would not be stained by water alone. However, prior to full application, user should test for staining potential by applying a small amount of diluted solution to an inconspicuous area of the material to be treated in order to determine whether staining will take place.

Avoid contact with areas that have been treated until they are dry.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in a cool place away from heat or open flame.

**Pesticide Disposal:** Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of at or by an approved waste disposal facility.

**Container Disposal:**

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling if available. If recycling is not available: then dispose of container in a sanitary landfill or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
